GM valve body using GM filter.

**28801-S09K**

### Oil Temperature Sender Port Set-Up

There are three different setup options for the oil temperature sender port on the **28801-S** Powerglide oil pan.

- **Setup Option 1: 1/8" NPT Temperature Sending Unit**
  1. Insert Sonnax reducing bushing into 1/2" NPT port in Sonnax oil pan.
  2. Insert sending unit into 1/8" NPT port in Sonnax reducing bushing.
- **Setup Option 2: 1/2" NPT Temperature Sending Unit**
  1. Insert sending unit into 1/2" NPT port in Sonnax oil pan.

**NOTE:** Sonnax reducing bushing is not required with this setup.
- **Setup Option 3: No Temperature Sending Unit**
  1. Insert Sonnax reducing bushing into 1/2" NPT port in Sonnax oil pan.
  2. Insert Sonnax pipe plug into 1/8" NPT port in Sonnax reducing bushing.
